

1

Log in to **myMiami** and navigate to the **Student Essentials** dashboard. Select the **Canvas** widget.

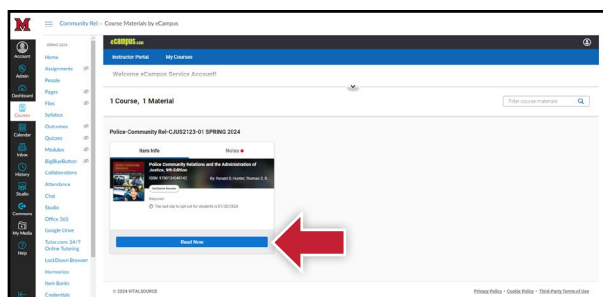

2

Once in Canvas, select the **Courses** tab on the left-hand toolbar. Then select a participating course and select **Course Materials by eCampus** link to access your Inclusive Access course materials.

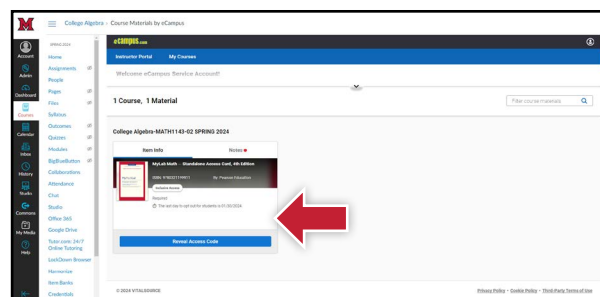

There may be different delivery methods for your courseware. Please see the following for guidance on how to access.

eBooks

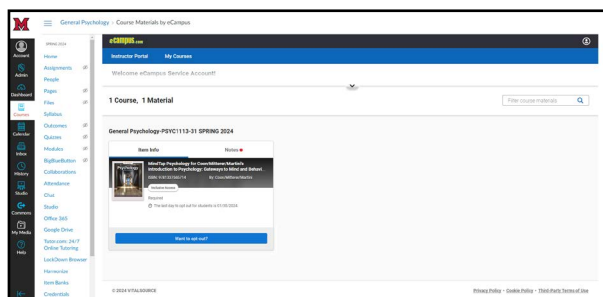

eBooks (or “eTextbooks”) will be accessed directly in your Canvas course. To access, select the **Read Now** button. The Bookshelf eReader allows you to read, highlight, and take notes.

Access Code

For courseware that requires an access code, you will obtain the access code directly in your Canvas course by selecting the **Reveal Access Code** button. Thereafter, you will need to enter the revealed code into a separate publisher’s provided URL in Canvas to access your courseware.

Codeless Access

Some courseware may not require an access code. To access your courseware content, navigate to the publisher integration in your Canvas course. Use the **Course Materials by eCampus** link for opting out only.
